COVID-19 in 2020

KEEPING BUSINESS' GOING

MBL is doing its due diligence to help our staff and clients going during these tough times. We have implemented up to date technologies so that we can do most of our work while still respecting social distancing.

How COVID & "Shelter-in-Place" Orders May Impact Massachusetts

A recent [Forbes article](#) spoke about the impacts of the virus on business in California. California had orders to close any non-essential business before MA did. Forbes article stated..."*In a flash survey of San Francisco Bay Area CEOs taken on March 19, just a few days after the USA's first shelter-in-place order, 75% of the CEOs report negative impacts while 9% are being positively impacted. Collectively, they believe it will be 4.9 months before we return to normalcy.*"

Please rest assured that MBL has and is doing everything we can to keep the "normalcy before & during this crisis.

WHAT YOU CAN DO TO HELP

- Work from home when possible
- Try to avoid large crowds
- Sanitize hands & work space often
- If you feel ill stay home until you feel better
